

AN OPEN LETTER

To Minister Greene

Dear Minister Greene,

I want to thank you for this wonderful opportunity to help care for the children of Antigua. I had the opportunity to meet with individuals at three schools. The principals and teachers clearly care very much about the students. The students were very well-behaved and polite. I had the opportunity to later meet with some of the parents and students in order to evaluate for possible neurodevelopmental differences, which may impact learning, behavior and school performance.

I very much appreciate your generous hospitality and the opportunity to continue to partner with the community. As always, I have greatly enjoyed meeting the wonderful people and children here. Everyone I've come in contact with has been friendly and inviting. Leslie Nesbitt has been instrumental in organizing the screening visits.

I hope to continue efforts to provide neurodevelopmental care for children in Antigua in the future.

Sincerely,

Kathryn A. McVicar, MD
